HERBERT BROWN, - Managing.

NOT YET, DEAR HEART.

From the Kansas City Star:
"If Mr. McKinley really desires to manifest the gratitude to the sound-money democrats to which he has given expression he will conduct his administration in conformity with those policies which are favored by the liberal and progressive elements of both parties. He will lay the foundation for an organization broad enough to take in all good citizens, all of the friends of upright government. That is all the sound-money democrat asks."

The Star is doubly correct in saying that the sound-money democrat will be content if Mr. McKinley will conduct his administration in conformity with the policies of leaders of the sound-money democrats. The assumption that there is no considerable difference between sound-money democrats and sound-money republicans has no basis in the platforms of the two parties. The sound-money democrats declared at Indianapolis for free trade and the gold standard. The republicans declared for protection to home industries and bimetalism through international agreement. It is not easy to see how the liberal and progressive elements of both parties can favor both platforms. The circumstance that when Bryanism threatened to swallow the democratic party some thousands of democrats sought political safety behind republican entrenchments does not give the struggle a right to assume leadership of the party. The idea of forming a party that will take in everybody but Bryan and his noisy, noisy followers is the millennium of politicians.

of glory such as was never witnessed before.

The chances now look favorable for the annexation of Hawaii, Queen Lili, and all.

QUEEN VICTORIA and the Prince of Wales seem to have a lead pipe cinch on the prizes offered at the English cattle shows.

It is rumored that the Cuban insurgents have offered a reward for Weyler's head. Nobody seems to know what they want with it, as in the light of his recent record there is certainly nothing in it.

It is said that Weyler is of German descent. If the statement be true he has descended so far that no unprejudiced person would think of holding the German accountable.

WORK on the Panama canal is proceeding rapidly. Within the last few months an additional force of 1000 laborers has been added. These come from South Africa and the West Indies.

THE ARIZONA is a very self-sufficient lot of people. These thousands of her loyal citizens, each requiring two years who are anxious to become martyrs to the art of political defeat.

It is too bad that some of the pop-culture orators could not have had more time in Pennsylvania. They might have captured the 300,000 majority which was given Major McKinley, and given it to Mr. Bryan.

A SHEPHERD's body was recently carbonized at Roche la Motte, in France. During a thunder storm the telegraph wires were blown down, and carried around the man, who was standing under them.

THE coming election is creating quite a little excitement among the candidates and aspirants for office. With one or two more tickets in the field there should be ample opportunity for all citizens to have a satisfactory choice.

THE goddess of political fortune is very fickle—just like her sister who controls the financial destinies of men. Her capricious smile on many before election, but she only places the crown of success upon the heads of few. It's real wicked for her to flirt so unceremoniously and so heartlessly.

TOMORROW is Thanksgiving day, and a National holiday, hence no paper will be issued from this office. It is the earnest wish of the CITIZEN and its management that the day may find its readers with cause for thanksgiving and merrymaking and that love and contentment may bless each home and those who make it such.

DURING the months of March, April, May and June of this year, the four vacationed limited trains of the Chesapeake & Ohio railway between Washington and Cincinnati made a remarkable record. Each train covered 599 miles 122 times, a grand total of 292,312 miles, or nearly eleven and three-quarters the earth's circumference, and yet the four trains were on time 493 times out of a possible 498, an average of 95 per cent.

THERE is a woman in Oakland, Mrs. Stow, who is calculating on remaining as an inhabitant of this mundane sphere for two centuries. Her hopes are based upon a diet of fruit. The lady has evidently failed to take into consideration one of the most important factors which militate against the consummation of her desire—the old fellow with the shaggy white hair who very seldom neglects to call upon those who reach the one hundred mark.

WEYLER has whipped the insurgents badly. The insurgents have topped the earth with Weyler. Weyler has returned to Havana, scored almost to death, has lost his blankets and gone supperless to bed. The insurgents have made it so warm for Weyler that he wants to go home to Spain. So go the report which come to us day by day from the scene of the struggle, and, pray, how can we be supposed to tell you will run things on the island in future.

THE Ferracute Machine Company of Bridgeton, N. J., has received an order from the Chinese government, through the regular authorized agents, for an outfit of mill machinery for making the Chinese coins of copper known as "cash," says the Western Electrician.

The machinery consists of five coin-punching presses with attachments and dies, similar to those furnished to the United States mint in Philadelphia, and two punching presses with feed attachments and dies for cutting the blanks; also, several extra dies and some other special machinery, the whole order amounting to about \$13,000.

THE Northwestern Lumberman says: "In Harbor Springs, Mich., there is a large and flourishing wood toothpick industry. White birch is exclusively used in the manufacture of the toothpicks, and about 7,500,000 are turned out daily. The logs are sawed up into bolts each 28 inches in length, then thoroughly steamed and cut up into veneers. The veneer into long ribbons three inches in width, and these ribbons, eight or ten at a time, are run through the toothpick machinery, coming out at the other end, the perfect pieces falling into one basket, the broken pieces and refuse falling into another." And yet some Arizona society insist upon picking their teeth with forks.

A SUPPOSED FLYING MACHINE
Creates Much Interest in the Neighborhood of Sacramento and Oakland.

SAN FRANCISCO, Cal., Nov. 24.—The inventor of the mysterious air ship which has been puzzling local scientists and others for the past week, is believed to be one "Dr. E. H. Benjamin," an alleged dentist who has occupied rooms in an old building on Broadway for the past two years, but so far he has successfully evaded all attempts to discover his identity.

His attorney, Collins, who seen yesterday, declined to tell further about the alleged invention and the machinery, said this morning: "The inventor came to my office in the Crocker building, and I don't know he had been in the building in the last few days. The wind currents were very contrary, and the test was one that tried the merits of the machine in the hardest possible manner, and it was not until the inventor had been in the building for some time that he was able to get the machine to fly. He started from the locality where the vessel is housed and flew over Alameda and out through the Golden Gate, sailing the wind and making a very good record. The inventor is now in the same old building, running on his return trip as far as Sacramento."

A dispatch was received from Sacramento last night to the effect that hundreds of people there had again seen the mysterious vessel in the heavens, but as yet no one had been able to see the object sufficiently well to state definitely what it was.

BEESCHER as a Slave Auctioneer.
Even people of mature years whose memory is clear about matters before and during the war have practically forgotten that Henry Ward Beecher was his pupil in Plymouth Church, Brooklyn, as an auction block for slaves.

THE most famous of his "slave sales" was that of the beautiful girl, Sarah, and was upon this occasion that the most exciting scenes ever witnessed in Plymouth Church, or in any other American church for that matter, occurred.

Mr. Beecher was unusually dramatic; he put a slave into his hands, as he stood the slave girl on the platform beside him, which fairly burned into the hearts of his auditors. It was not long before the people became almost hysterical with excitement. But Beecher kept on until he was ready to pass the collection baskets. The auditors were sent to their feet, and not only kept on but gave money as fast as the baskets could hold it.
